SocialTech Lab.eu

Who we are:

SocialTechLab.eu consists of an interdisciplinary team that designs and drafts future social tech concepts & studies for AI companies in order to generate human-centered experience and sustainable social impact with its AI product and service. The Trustworthy AI Implementation - TAII Framework for AI companies combines methodologies from inter-disciplinary professions like computer science, innovation, psychology and sociology. SocialTechLab.eu has been founded by Josef Baker-Brunnbauer during his research work at the University of Graz, Austria in 2019. The findings showed the need for trustworthy AI for a societal understanding and acceptance. It also demonstrated the challenges for companies to tackle the implementation of trustworthy AI. SocialTechLab.eu empowers the values of the European Union: respect for human dignity, freedom, democracy, equality, the rule of law and respect for human rights, including the rights of persons belonging to minorities.

Who you are:

- Curious and self-organized person
- Interested in technology, humanity and cultures
- Identification with the European Union and its values
- Master's degree or PhD in a suitable academic area
- First international research and publication experience
- Experienced in moderating and organizing workshops
- Experience in the application for research funding
- Interest in industries and knowledge transfer
- Interest in innovation methodologies

What you like to do:

- Research in socio-technical topics in the field between technology and humanity
- Research focus: Artificial Intelligence (AI) Ethics and industry transfer
- Publication of scientific articles and business-oriented papers
- Organizing and moderating workshops
- Translation between research and business implementation
- Working in diverse teams and implementing of multidisciplinary methodologies

What you will get:

- Possibility and freedom to shape a good future
- Working on emerging technologies and its social impacts
- Fully remote position within the Central European Time Zone (CET) +/-1
- Access to network of professionals
- Possibilities for future part- or full-time job opportunities
